

## Motion

### To use the Community Fund to support Edward Woods community centre's solar project

The Edward Woods community centre is a vibrant community centre located in the Shepherd's bush area of Kensington & Chelsea. Pre-covid, they were welcoming over 2000 visitors each week. Their aim is to enhance the health and well-being of local residents while reducing inequalities and social exclusion, and improving opportunities for disadvantaged groups to participate in work and community activities. Their key services include parenting support, youth club, training and employment support, services for the elderly.

The community centre is currently fundraising to install 24 kW of solar panels on their roof. The money saved by generating their own power (estimated at £150,000 over 20 years) will be used on community projects. They are looking to raise £79,498 from donations.

#### The directors propose:

- To donate £150 or £300 from our Community Fund to Edward Woods community centre's solar project fundraising, to show our support for their initiative
